ABOUT NATIONAL PALS

National PALS began its journey in 2010 with a showroom in Jeddah, Saudi Arabia. Drawing on the founders' experience in the electrical and telecom markets, the company set out to supply products that support the practical needs of installation professionals. From these beginnings, National PALS has grown to serve main contractors, subcontractors and maintenance companies across the Kingdom.

With our head office and main branch in Jeddah, we bring together product supply, manufacturing operations and a regional branch network to support electrical infrastructure, building services and industrial applications. Our approach centres on understanding customer requirements and helping them source suitable products for their projects.

Spark Tech — Our Own Product Brand

Spark Tech is National PALS' own product brand. National PALS is the company behind the business, while Spark Tech is the brand under which we manufacture and market our own products.

Spark Tech forms an important part of our identity as a manufacturer and supplier. It gives our own product range a distinct name, backed by National PALS' market experience, manufacturing operations and customer support network.

Products for Practical Installation Needs

Our portfolio covers electrical conduits, fittings and related installation accessories. The range includes EMT and rigid conduit systems, flexible and liquid-tight conduits, steel and weatherproof boxes, channels and support fittings, cable accessories, and earthing and lightning protection products.

These categories help us support customers sourcing materials for cable routing, protection, connections and installation work, bringing related requirements together through one supply network.

Manufacturing and Regional Support

With manufacturing operations in Saudi Arabia and India, National PALS combines its own product capabilities with an established supply business. Our branch and warehouse teams support customer enquiries, product availability, order coordination and dispatch, connecting project requirements with day-to-day supply.

As we continue to grow, our focus remains on dependable products, responsive service and lasting customer relationships. Through National PALS and our own Spark Tech brand, we aim to support the people and projects building the Kingdom's electrical infrastructure.

LEADERSHIP

National PALS brings together leadership, commercial experience and operational teams to serve electrical and industrial customers across Saudi Arabia.

With a practical understanding of the electrical and industrial sectors, our leadership connects customer needs with manufacturing capabilities and regional support. By guiding the development of Spark Tek and strengthening coordination across our teams, they keep National PALS focused on dependable products, responsive service and lasting customer relationships.

Visionary Leadership

From a vision in Jeddah to a growing presence across Saudi Arabia, our leadership has guided the growth of National PALS and our own product brand, Spark Tech—bringing together industry experience, commitment and a focus on customer needs.

OUR PEOPLE

More than 200 people contribute to the National PALS business, bringing together leadership, finance, HR, purchasing, sales, branch operations and warehousing.

A connected organisation

Our people help translate customer requirements into coordinated action, from the first enquiry to the preparation of an order for delivery.

Customer focus

We value clear communication, practical product knowledge and responsive support throughout the customer relationship.

Working together

Shared responsibility across functions helps our teams stay aligned with the needs of contractors, maintenance companies and industrial customers.

OUR MANUFACTURING PRESENCE

National PALS has manufacturing operations in Saudi Arabia and India, supporting the companys wider electrical and industrial supply business.

India

Manufacturing presence supporting the company's wider product and supply activities.

Saudi Arabia

Manufacturing presence serving the company regional operations.

CONDUIT SYSTEMS

Conduits and matching fittings form the foundation of an organised electrical installation. Our catalogue brings together EMT, rigid and flexible systems for a variety of installation requirements.

EMT conduit and fittings

EMT tubing; set-screw connectors and couplings, compression connectors and couplings, elbows, insulated bushings, EMT-to-flex transition fittings.

Rigid conduit and fittings

Galvanized rigid conduit, Rigid/IMC couplings, connectors, 90-degree elbows, hubs, grounding bushings, reducing bushings and nipples.

Flexible conduit systems

Galvanized steel flexible conduit and liquid-tight flexible conduit, with straight and angled connectors.

BOXES AND SUPPORT SYSTEMS

Our range brings together enclosures, access fittings and mounting components for coordinated electrical installation work.

Electrical boxes and covers

Galvanized square, octagon and handy boxes, extension rings, blank and knockout covers, weather proof boxes, covers and closure plugs.

Access and installation

EMT and rigid conduit bodies, including LB, LL, LR, C and T configurations, fish tapes and installation accessories.

Supports and fixings

Conduit hangers, clevis hangers, strut clamps, plain and slotted channels, threaded rods, spring nuts, beam clamps, pipe clamps and duct accessories.

EARTHING AND CABLE ACCESSORIES

Our range brings together enclosures, access fittings and mounting components for coordinated products to complement the wider electrical installation range.

Earthing and lightning protection

EMT tubing; set-screw connectors and couplings, compression connectors and couplings, elbows, insulated bushings, EMT-to-flex transition fittings.

Cable termination

Galvanized rigid conduit, Rigid/IMC couplings, connectors, 90-degree elbows, hubs, grounding bushings, reducing bushings and nipples.

GEMS and installation accessories

Galvanized steel flexible conduit and liquid-tight flexible conduit, with straight and angled connectors.

PVC COATED SYSTEMS

PVC-coated conduit products provide an additional protective layer for installations where corrosion exposure is a key selection factor.

Conduit and connection range

PVC-coated rigid conduit; elbows; couplings; bushings and nipples.

Access and enclosure range

PVC-coated conduit bodies, outlet boxes and covers, together with sealing fittings listed in the catalogue.

Supporting accessories

PVC-coated liquid-tight connectors, conduit clamps and mounting straps complete the product family.

Application focus

Consider the environment, coating compatibility and complete assembly when selecting products for industrial or coastal applications.

OUR SAUDI NETWORK

Network Extending Across The Kingdom.With Our Head Office And Main Branch In Jeddah, National Pals Serves Customers Through A Network Extending Across The Kingdom.

Close to our customers

A connected branch network supports enquiries, sourcing and order coordination for local and regional requirements.

PROJECT EXPERIENCE

National PALS has been involved in more than 1,500 projects, according to the company brief The following four references are highlighted by the company.

NEOM projects

Aramco projects

Yanbu Distribution project

North Jeddah Bulk Plant

OUR VISION

To become a recognised international manufacturer and supplier of electrical solutions, helping customers build safer and more efficient infrastructure.

Customer trust

Build lasting relationships through dependable products, clear communication and responsible service.

Manufacturing development

Strengthen our manufacturing capabilities and broaden the role they play in supporting customer requirements.

Long-term relevance

Develop our product offering in response to changing technology and the evolving needs of the electrical and industrial markets.

OUR MISSION

To understand our customers ' requirements and provide suitable electrical and industrial products through responsible sourcing, manufacturing and coordinated service.

Understand the requirement

Clarify the application, requested specification, quantities and delivery expectations before an order is confirmed.

Provide suitable products

Bring together product choice, relevant technical information and practical commercial support.

Support the customer

Keep customers informed through purchasing and delivery, with a clear route for product and after-sales enquiries.

SUPPORTING SAUDI VISION 2030

We aim to contribute to Saudi Arabia's development by supporting the electrical supply needs of growing cities, industrial facilities and infrastructure.

Development programmes to watch

NEOM | Qiddiya | Red Sea Global | ROSHN | Diriyah

Where our range can contribute

Electrical containment, enclosures, support systems, earthing and cable accessories are relevant to the wider building and infrastructure supply market.

Our direction

Strengthen local manufacturing, develop our people and improve supply coordination as customer requirements evolve.

QUALITY AND PRODUCT DEVELOPMENT

Our focus is on helping customers select products that suit the intended application, supported by clear specifications and relevant product information.

Quality at each stage

Our quality approach centres on material selection, production checks and final product review, as described in the company brief.

Safety and responsible operations

We recognise the importance of safe working practices, appropriate handling and responsible use of materials throughout manufacturing and supply.

Continuous improvement

We aim to refine our range as technologies, installation practices and customer requirements develop.

SUPPLY AND CUSTOMER SUPPORT

Our supply approach brings together product sourcing, branch coordination, warehousing and customer communication to support the needs of each order.

From enquiry to dispatch

Requirement review > product selection > quotation > order confirmation > preparation and delivery coordination.

Logistics and bulk requirements

We coordinate packing and dispatch around order quantities, destination and agreed delivery arrangements, including project and bulk enquiries.

After-sales support

Customers can contact our team for product information and assistance with applicable warranty or manufacturer guidance.

Brands and suppliers

Our catalogue brings together products from multiple sources, including a GEMS range. Brand relationships should be described according to the current commercial agreements.

OUR BRANDING PARTNERS

We work with a diverse network of established brands and suppliers to offer a broad range of electrical and industrial solutions. These relationships support our ability to provide customers with reliable product choices, relevant technical information and solutions suited to different project and application requirements.
